REMARKS

50X1-HUM

1. On 20 December 1950, both the Artillerie Kaserne on Zerbster Chaussee and the Panzer Kaserne on August-Bebel-Strasse, Burg (N 53/Y 61), were occupied to capacity by artillery and tank units respectively.

no new troops had arrived in Burg for the last two months. Intensive training was observed in the yards of both installations and on the drill field. Training was held from about 9 a.m. to 12 noon daily, while no outdoor activity was observed in the afternoons.

50X1-HUM

- * Comment. The information confirms that the barracks installation on Zerbster Chaussee quarters artillery units and the installation on August-Bebel-Strasse tank units.

The motor vehicles observed at the Artillerie Kaserne included some belonging to the unidentified AAA Div, possibly the 32nd, elements of which were previously stationed in Burg.
